

# IRwin™ Methane Leak Detector and accessories - the modular system for Natural Gas Pipe Survey

## Models

### IRWIN S

(Methane, Carbon dioxide)

### IRWIN SX

(Methane, Carbon dioxide)

### IRWIN SXG

(Methane, Carbon dioxide, Ethane, Propane, Butane)

### IRWIN SXGT

(Methane, Carbon dioxide, Ethane, Propane, Butane, Oxygen, Hydrogen Sulfide, Carbon monoxide)

## Accessory parts

Carpet Probe MONO Wheeler (Complete)

Bell Probe (Complete)

### HAND PROBE

Complete with 2m hose. Small and robust, for quick survey of hard-to-reach areas

### ROD

Fiber rod, 850 mm, facilitates and extends reach. Connects to carpet, bell etc.

### ROD EXTENSION

Fiber rod, 150 mm, designed to be attached to rod 850 mm

### CARPET

Designed to be attached to rod, for optimized above ground survey of large asphalt surfaces

### BELL PROBE

Designed to be attached to rod, includes carrying attachment

### BAG

Incl. shoulder strap, makes the portable IRwin methane leak detector easy to carry and handle

### HARNESS

Incl. bag and shoulder strap, for maximum ergonomics

### FILTER KIT

A complete set of filters, incl. cigarette, sintered and disc filters to IRwin and its accessories

### CARRYING CASE

Robust and durable, for easy and safe transport of the entire survey system
