

## HYDROGEN SPECIFIC MONITORING SOLUTIONS

# SAFETY FIRST

## HY-ALERTA™ 500 Handheld Hydrogen Leak Detector

No Hydrogen Leak Detected

Hydrogen Leak Detected  
**> 15 ppm**  
(0.0015% by Volume)

Hydrogen Leak Detected  
**> 100 ppm**  
(0.01% by Volume)

Hydrogen Leak Detected  
**> 1000 ppm**  
(0.1% by Volume)

Hydrogen Leak Detected  
**> 10,000 ppm**  
(1% by Volume)

Hydrogen Leak Detected  
**> 100,000 ppm**  
(10% by Volume)

### Hydrogen Leak Located!!!

- 15 ppm to 100% hydrogen by volume detection range with no peripheral equipment required
- Unique visual LED Array pinpoints actual location of hydrogen leak
- Hydrogen-specific, solid state sensors
- No risk of saturation in high hydrogen concentrations
- No cross-sensitivity to combustible gases
- 10 year product life expectancy
